

# iOS/Android App Dev for Access Control Manufacturer

## PROJECT DETAILS

 Mobile App Development

 Oct. 2019 - Ongoing

 \$50,000 to \$199,999

*"The team does excellent work and they meet their obligations."*

## PROJECT SUMMARY

Insyte Consultancy Services provides app development service for an access control manufacturer. The app is for iOS and Android and serves as an apartment buzzer system with video interface functionality.

## PROJECT FEEDBACK

Insyte Consultancy Services delivers exceptional quality and their client is satisfied with this project so far. Although their adherence with project timelines could use improvement, the team is skilled at handling projects to fulfillment.

## The Client

Introduce your business and what you do there.

I'm the founder and owner of an access control manufacturer for commercial infrastructure.

## The Challenge

What challenge were you trying to address with Insyte Consultancy Services?

We needed help with app development.

### CLIENT RATING

**5.0**

Overall Score

Quality: 5.0

Schedule: 4.0

Cost: 4.0

Would Refer: 4.0

## The Approach

### What was the scope of their involvement?

They're working on a new video touch screen entry system product. It has one way video applications for iOS and Android. It also supports legacy application services. They're making the app from scratch and work on our on-site servers. We're currently in the final testing stages.

Using the system, anyone can go up to an apartment building, quickly search for someone on a video touch panel and press their name and unit number. The tenant gets a call on their cellphone or landline, or a video call on their iOS and Android device.

### What is the team composition?

We work with one of their founders.

### How did you come to work with Insyte Consultancy Services?

I found Insyte several years ago through a Craigslist advertisement.

### How much have you invested with them?

We've spent well over \$100,000.

### What is the status of this engagement?

For this project, we started working together in October 2019, and our work is ongoing.

## The Outcome

What evidence can you share that demonstrates the impact of the engagement?

Our metrics for success are time to completion and product performance. They've been successful with the project so far.

How did Insyte Consultancy Services perform from a project management standpoint?

We use Skype and email for daily communication. Timelines have been taking longer than necessary. That being said, the development they're working on is very difficult.

What did you find most impressive about them?

Their ability to tackle and complete a problem that's within their scope stands out. They're also adept at outsourcing to complete a project.

Are there any areas they could improve?

Their timeframes could be improved.

Do you have any advice for potential customers?

My advice is to sign up and work with them. The team does excellent work and they meet their obligations. They'll complete your projects to your satisfaction.
