

# Mobile App Dev for Lawn Care Company

## PROJECT DETAILS

 **Mobile App Development**

 **Oct. 2017 - Apr. 2019**

 **\$10,000 to \$49,999**

 *"Their passion to design and develop mobile apps is compared to none."*

## PROJECT SUMMARY

Insyte Consultancy Services designed and developed an iOS mobile app for a lawn care company. The app helps the partner save time corresponding with customers.

## PROJECT FEEDBACK

The app is live, and the partner is happy with the results. The team worked diligently and communicated well on tasks and deliverables. Insyte Consultancy Services' milestone-based payment method was effective and well-liked by the partner.

## The Client

Please describe your company and your position there.

We are a home improvement company and in business for more than 20 years.

## The Challenge

For what projects/services did your company hire Insyte Consultancy Services?

To design and developer Mobile App especially iOS.

What were your goals for this project?

To get our idea converted into a Mobile app.

**Memphis, Tennessee**

### CLIENT RATING

**5.0**

Overall Score

Quality: 5.0

Schedule: 5.0

Cost: 5.0

Would Refer: 5.0

## The Approach

### How did you select this vendor?

We found Raj & Insyte through Thumbtack and then Raj flew to meet us in Memphis. We had a great discussion over lunch and we decided to hire Insyte to design and deliver our Mobile app.

### Describe the project in detail.

We have been dealing with bad customers at times and this app would save serving a bad customer.

### What was the team composition?

There was 5 members team assigned on our project.

## The Outcome

### Can you share any outcomes from the project that demonstrate progress or success?

We are so happy that we got in touch with Raj & Insyte. They did an excellent job by explaining the entire process and what we have now in the App Store is exactly what we wanted.

Couldn't be happier than this and would advise everyone to hire Raj & Insyte for their Mobile app Project. Trust me, you will not find better than Insyte. The milestone based payments were great and gave us enough time to arrange money for the next payment.

### How effective was the workflow between your team and theirs?

Excellent. Mohit was our project manager and he worked diligently and kept us informed on every task and deliverable. We were communicated on each milestone & delivery dates.

## What did you find most impressive about this company?

Milestone based payment was really a breeze as they won't invoice you until the milestone is done, delivered, tested and approved by me. Their passion to design and develop mobile apps is compared to none.

## Are there any areas for improvement?

Not that I can think of. Actually we were late in making payments and they were very understanding about it.
